# Training Approach

## Pre-Evaluation

Before training begins, participants' skills are evaluated through our LMS to identify learning gaps and tailor topics for better performance.

## Post-Evaluation

Conduct pre and post assessments to evaluate learning effectiveness and skill improvement.

## Customized Content

Customize course content, exercises, case studies, and examples according to business needs.

## Certification

Issue completion certificates to participants upon successful completion of the training.

Hi Hirdesh,

On behalf of the team, I would like to extend our sincere thanks for the outstanding Excel training session you conducted for our employees. The feedback has been very positive, and many have praised your clear delivery, engaging style, practical knowledge, and your personal attention to each participant.

We appreciate the effort you put into making this training a valuable experience for everyone involved.

Looking forward to future opportunities to work with you!

Rgds/.Yamini

Session 2 & Feedback from session 1 : 14 June -Training invite for Virtual session on Microsoft Excel ✕ 🖨

**Monika Kanchan Ahuja** [redacted]@dcmshriram.com>

to me, Sarabjeet, Vikas ▾

Good evening Hirdesh,

**Thank you** for your wonderful interactive virtual session.

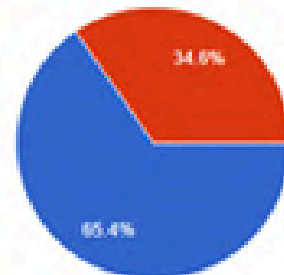

Glad to share that the 1st session has brought a lot of excitement within the team and basis that we received the below feedback/ few queries.

Please share your suggestion or any specific requirement, if any
Its good interactive session . It also helps to improve our day to day work. We need a training session on Vlookup .
Advance Excel
Basic excel knowledge training should be conducted.
Difficult functions can be explained in more details.
It is very good session and required another session for various formulas in xls.
more session require advance excel
More sessions are required.
More topic will cover in next session Like if condition with different logic, advance formula.
Need another session

All LinkedIn members

Hirdesh conducted a number of advanced xl training for FIA. He would explain the concept very simply and also give us quick tools which we could use in our daily activities.

He customised the training program for our requirement which made it easy for us to grasp the concept. He was very patient in answering our numerous queries, some quite complex and would give us multiple scenarios till we had grasped the concept.

Hirdeesh stood out for his ability to engage and train people in various functions and levels with the same ease. He is versatile enough to meet the changing demands of the organisation and develop new training plans to meet our requirements. He is passionate about ensuring that we improve the way we use Excel. Everyone benefitted from the training program.

Hirdeesh also engaged with the team post the training session on an ongoing basis and has become the go to person for advanced xl queries.

I wish him all the best in his endeavours !
